(Business Registration No: 199400661M)

The F1-400 Aircraft Tractor was designed in Australia for both pushback and extended towing of aircraft up to 460 Tonnes (B747-8).

Drop-in ballast in the F1-400 easily transforms the tractor from a standard 40 Tonnes for A340 & B777 up to 50 Tonnes for B747-8 with no obstruction to the operators' line-of-sight.

With power to spare the F1-400 features a 360kW (483hp) Diesel Engine with 1990 Nm (1468 Ft/lbs) of Torque. This modern styled, unique tractor is built on our exclusive integral perimeter frame chassis. This chassis is guaranteed for life. The F1-400 is easy-to-maintain with simple lift off covers surrounding the oversized engine bay and easy-to operate with a fully enclosed cabin and optional hot/cold air-conditioning.

TYPE : F1-400 DZK
REF. : -
